Fajardo Campus**

Planning, Evaluation and External Resources Office

***Relevant Information on
Assessment Results
2018-2022***

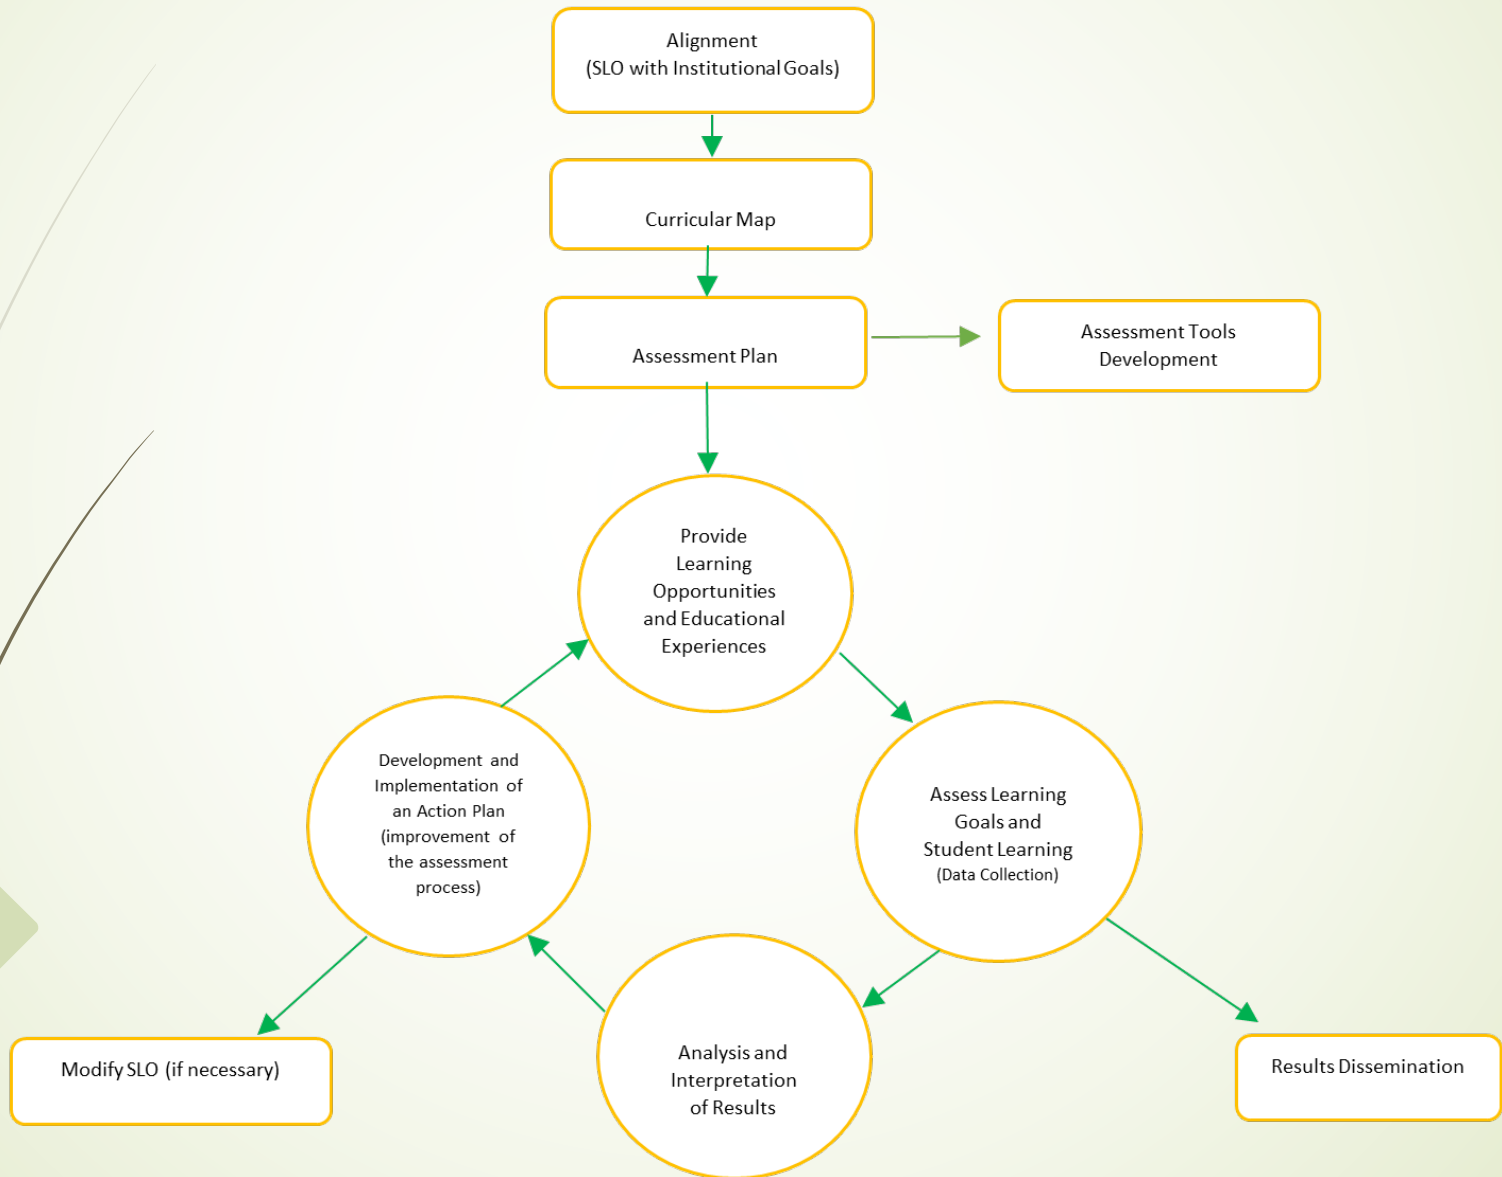

Each of the Fajardo Campus academic programs has an assessment plan which is revised annually based on the results obtained. This plan is properly aligned with the programs and campus objectives, so that the alumni can obtain the necessary skills and abilities to perform their profession. In addition, the service offices (institutional assessment) are included as an important part of the students academic success.

Since academic year 2013-14 the new plan includes:

- ▶ Student Learning Outcomes (SLO)
- ▶ Type of Method (direct or indirect)
- ▶ Type of Assessment (classroom, course or program)
- ▶ Course that the SLO be evaluated.
- ▶ Measure
- ▶ Method/Assessment activities
- ▶ Dissemination

The SLO were aligned with the goals and objectives of each program. For the academic year 2021-2022, 92% (46 de 50) of the FC academic programs have completed the assessment plan.

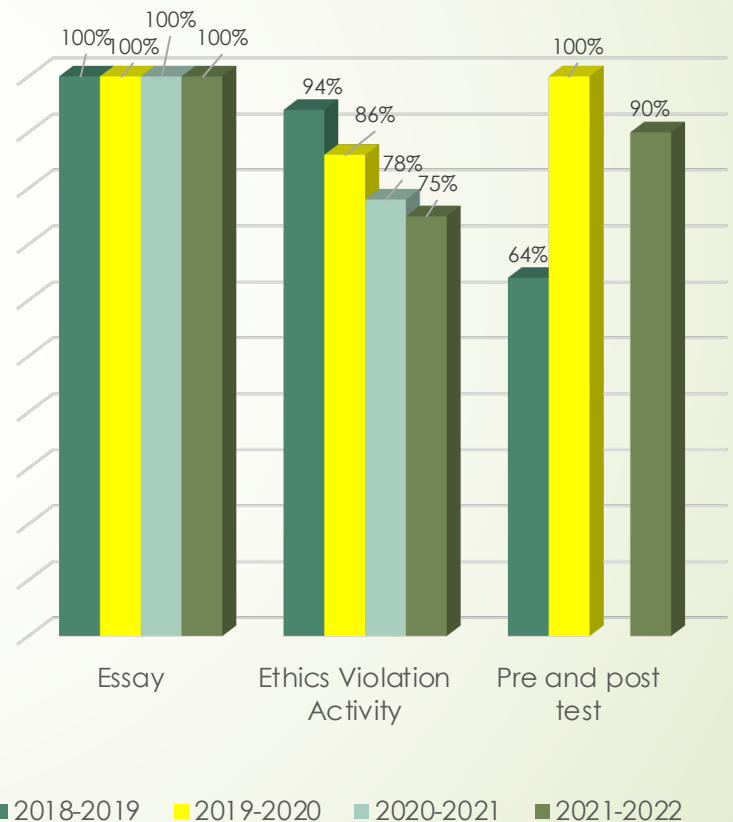

FC's Assessment Cycle

Social Work SLO: Demonstrate ethical and professional behavior

Measurement	Method	Results (2021-2022)	Analysis
75% of the students will obtain 75% or more in the assessment activity.	Value Essay	100% of the students obtained 75% or more in the assessment activity.	The measurement was accomplished
Action Taken/Improvements Made			
Action Taken 1: Meetings were held with the full-time and part-time faculty that taught social work courses to discuss the skills and concepts that the students did not learn as expected and made the necessary corrective actions.			

Percentage of students with 75% or more (2018-2022)
