

Cooperating teachers' evaluation of clinical practice candidates' dispositions (PD-11)

The Teacher-Disposition Survey (PD-11) has 20 items that measure the dispositions of trainee teachers. The scale has five levels: five is excellent, four means very good, three is good, two is deficient, and one is poor. This instrument has a reliability of 0.94, and this is excellent reliability.

The results of the trainee dispositions survey revealed that Fajardo TEP met the goals in all the premises measures and for all the measured areas. These results can be observed in table 28.
