Employment Data in the field they have studied for 2022 Advance graduates in Educational Leadership Year 2022

The Program made a search of employment in the field they studied for the four (4) 2022 Graduates from the Educational leadership. The results were that all 4 graduates are still working as teachers and have not been able to find a job as a director. Still is too soon since they graduated in June 2022. Two teachers are working in the public schools and two teachers are working in private schools. The following table shows the place the graduates are working.
